Digital Image Processing Laboratory. : (for year 2560)

Computer Science department Faculty of Science KhonKaen University .	Lecturer : Asst. Prof. Sunti Tintanai .

Lab#3 : Image Enhancement in Spatial Domain#1
Date 29 Jan 2018 :   Submit report on date 9 Feb 2018

1. Write program (M-files) for process as following

    1.1 Display "img3_a.bmp", "img3_b.bmp" and "img3_c.bmp" .

    1.2 Use MATLAB function for process and display histogram
        of "img3_a.bmp", "img3_b.bmp" and "img3_c.bmp" .

    1.3 Write function program (not use MATLAB function)
        for process and display histogram of "img3_a.bmp",
        "img3_b.bmp" and "img3_c.bmp" .

Remark : 1. Filename format : LAB3_xxxxxxxxx_x .zip
          (xxxxx..._x is your ID)
        2. write ID, Name in your header files .
        3. write commend in your source code (program m file).
        4. write flow chart of your program.
        5. explain output from your program.
        6. your file must save in form " MS word2007
          (.docx) "   and   "Acrobat file (.pdf) ".
        7. Zip file is compound of m file, docx file, pdf file and
          all output files.

%%%% Good Luck %%%%
